

# OceanAGE

## Ocean Careers to Inspire: Another Generation of Explorers

A partnership between *NOAA Ocean Exploration* and *NASA Oceanography*

<http://oceanexplorer.noaa.gov/edu/oceanage/welcome.html>

Peter Etnoyer, Marine Biologist  
Aquanautix Consulting

OceanAGE is an interactive online ocean careers offering that inspires students from all backgrounds to learn more about oceanography and to pursue the mathematics, science and technology coursework required to become an ocean explorer.

OceanAGE invites students to virtually interact through Web Chats and Web Forums with the talented people who explore our ocean planet. From underwater submersible pilots to research scientists, these marine explorers provide students with first-hand knowledge about their exciting careers through live interactions, video interviews, profiles, and mission logs.

This year we will feature ocean scientists participating in the following NOAA Ocean Exploration Expeditions:

- Return to *Titanic* Expedition 2004 (October 19 and 20, 2004)
- Gulf of Alaska
- Operation Deep-Scope - Bioluminescence

Additionally, OceanAGE will feature scientists from NASA's Jet Propulsion Laboratory and Goddard Space Flight Center.

Join us for our first series of Web chats in October 2004. Visit the OceanAGE Web site for additional information and a schedule of live events.

To learn more about the offering, and for information on how to participate in the live events, please subscribe to the NOAA Ocean Exploration Education e-mail updates list at:
